

Letter Experts

Please help your child prepare for his/her week of being the LETTER EXPERT. Each child needs to have a foam board letter with vocabulary words and pictures that begin with the assigned letter. (See example at the end of these two pages.) The child should also have a bag with **5 items** that begin with the assigned letter. Your child will give clues so that others can guess what is in the bag. This is a higher level thinking skill along with speaking and listening skills being sharpened. For ex. If the assigned letter is an "A" your child may have an apple in his/her bag. The first clue may be that the item can be eaten. The next clue could be that it is a fruit. It can be red, green, or yellow. Please be sure to PRACTICE at home before having your student present at school.

Please let me know if you have any questions.
